Notes to the Condensed Financial Statements
March 31, 2008 and December 31, 2007

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at March 31, 2008, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2007 audited financial statements. The results of operations for the periods ended March 31, 2008 and 2007 are not necessarily indicative of the operating results for the full years.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from management and significant shareholders sufficient to meet its minimal operating expenses and seeking equity and/or debt financing. However management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Item 2. Management's Discussion and Plan of Operation.

This section must be read in conjunction with the unaudited Financial Statements included in this report.

A. Management's Discussion

Marvin's Place, Inc. ("Meltdown" or the "Company"), incorporated in the State of Nevada on April 4, 2007, is a development stage company with the principal business objective of becoming a premier franchisor of retail shipping, postal, courier and business service centers by providing a wide range of convenient, value-added business services to consumers, mobile and traveling professionals and the small office/home office market.

The Company was founded based on the need of individuals and companies to have dependable, consistent and professional business service centers where they can obtain a wide variety of benefits such as packaging, shipping, copy and print assistance, mailbox locations, email retrieval, delivery and messenger couriers and convenient office supplies. It is our goal to become the most dependable, consistent and professional business service center available to the public. We will recognize that each customer we will serve has different needs, requirements and concerns pertinent to their business. Our primary customer service goal is to tailor specific solutions to suit each particular customer's needs and concerns.

We are a small, start-up company that has not generated any revenues and lacks a stable customer base.

Since our inception to the present, we have not generated any significant revenues and have incurred a cumulative net loss as indicated in our financial statements. We believe that the funds expected to be received from the maximum sale of our common equity will be sufficient to finance our efforts to become fully operational and carry us through the next twelve (12) months, of which there can be no guarantee. We believe that the recurring revenues from sales of services will be sufficient to support ongoing operations. Unfortunately, there can be no assurance that the actual expenses incurred will not materially exceed our estimates or that cash flows from sales of services will be adequate to maintain our business. As a result, our independent auditors have expressed substantial doubt about our ability to continue as a going concern. If we do not produce sufficient cash flow to support our operations over the next 12 months, we may need to raise additional capital by issuing capital stock in exchange for cash in order to continue as a going concern. There are no formal or informal agreements to attain such financing. We cannot assure you that any financing can be obtained or, if obtained, that it will be on reasonable terms. Without realization of additional capital, it would be unlikely for us to stay in business.

In the initial approximately twelve month operating period from April 4, 2007 (inception) to March 31, 2008, the Company generated no revenues while incurring \$67,250 in general and administrative expenses. This resulted in a cumulative net loss of \$67,250 for the period then ended from inception, which is equivalent to \$(0.00) per share.

During the three months ended March 31, 2008, the Company generated \$0 in revenues while incurring \$7,065 in general and administrative expenses. This resulted in a net loss for the quarter ended March 31, 2008 of \$7,065. The net loss for both periods is attributable primarily to the continuing costs of start-up operations.

Liquidity and Capital Resources

As of March 31, 2008, the Company had \$12,750 in working capital. The Company's current assets as of March 31, 2008 consisted of \$12,750 in cash.

On January 31, 2008, the Company closed its offering which was registered on Form SB-2 whereby it sold 1,500,000 shares of its common stock at \$0.05 per share or \$75,000 in the aggregate. The Company believes that it has sufficient resources to continue operations for the next twelve months.

However, the Company's independent auditors have expressed substantial doubt about the Company's ability to continue as a going concern.

B. Plan of Operation

Marvin's Place, Inc. was incorporated on April 4, 2007. As of the date of this document, we have generated minimal revenues and substantial expenses. This resulted in a net loss of since inception, which is attributable to general and administrative expenses.

Since incorporation, we have financed our operations through minimal initial capitalization and nominal business activity.

To date we have not implemented fully planned principal operations. Our ability to commence operations is entirely dependent upon the proceeds to be raised in this offering. If we do not raise at least the minimum offering amount, we will be unable to establish a base of operations, without which it will be unable to begin to generate any revenues. The realization of sales revenues in the next 12 months is important in the execution of the plan of operations. However, we cannot guarantee that it will generate such growth. If we do not produce sufficient cash flow to support our operations over the next 12 months, we may need to raise additional capital by issuing capital stock in exchange for cash in order to continue as a going concern. There are no formal or informal agreements to attain such financing. We cannot assure any investor that, if needed, sufficient financing can be obtained or, if obtained, that it will be on reasonable terms. Without realization of additional capital, it would be unlikely for operations to continue.

Marvin's Place, Inc.'s management does not expect to conduct any research and development.

Marvin's Place, Inc. currently does not own any significant plant or equipment that it would seek to purchase or sell in the near future.

Our management does not anticipate any significant changes in the number of employees in the next 12 months. Currently, we believe the services provided by our sole officer and director appears sufficient at this time.

We have not paid for expenses on behalf of any director. Additionally, we believe that this practice will not materially change.

We have no current plans to seek a business combination with another entity.

Item 3. Controls and Procedures

Based on their most recent review, which was completed within ninety days of the filing of this report, Meltdown's Officers have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by Meltdown in the reports it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to Meltdown's management, including its Officers, as appropriate to allow timely decisions regarding required disclosure and are effective to ensure that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no

significant changes in Meltdown's internal controls or in other factors that could significantly affect those controls subsequent to the date of their evaluation.
